Orlando International Airport is now a proud participant in the “Hidden Disabilities Sunflower Lanyard Program”

As we all know, traveling can oftentimes be very stressful. For some of our guests who experience hidden challenges, it is even more so. This program is designed to help identify those individuals so that we can provide compassion, care and understanding throughout their journey.

This program is voluntary, and guests decide for themselves whether they would like to participate

To learn more, download training materials or sign up for future trainings, please visit this link: [MCO Sunflower Lanyard Program](#)
